

GENE CARLO GALLARDO

AI Engineer | Sales & Marketing Professional | Social Media Strategist

genecarloai@gmail.com | 0420 418 888 | Melbourne, VIC | gene-carlo.com

Dear Hiring Manager,

I am reaching out to express my interest in opportunities where AI engineering, sales and marketing, and social media management intersect. I offer a rare combination: over 14 years of frontline sales and marketing experience paired with hands-on technical skills in building AI powered systems. This blend allows me to not only strategise and execute campaigns but also engineer the intelligent tools that make them more effective.

On the technical side, I design and build production grade AI applications including conversational AI agents, automated lead generation engines, and intelligent workflow systems. I work with LLM integration, prompt engineering, RAG pipelines, and API development using Python and TypeScript. I have deployed AI receptionists that handle client enquiries autonomously, built data scraping tools that deliver qualified leads into CRM systems, and developed multi user SaaS platforms from the ground up.

On the commercial side, I bring deep expertise in client acquisition, pipeline management, and revenue growth across real estate, financial services, and B2B sectors. I have led sales teams, managed high value client relationships, and consistently delivered results through consultative selling and strategic outreach. I understand what drives conversion because I have closed deals and built client portfolios firsthand.

I also bring strong capabilities in social media strategy and content marketing. I have developed AI assisted content workflows, built automated posting and engagement systems, and created data driven campaigns across LinkedIn, Instagram, and Facebook. I understand how to leverage analytics to optimize reach, engagement, and conversion.

I would welcome the opportunity to discuss how my hybrid skill set can contribute to your organisation's success. Please find my CV attached for your review. I look forward to connecting.

Kind regards,

Gene Carlo Gallardo
